Chapter 1

My Own Little Fairytale

Chapter 1. Dream

"NOOOOOO!!!!" I woke up in the middle of the night from a good dream. It was so vivid like nothing I've ever seen before. My mom was there, not that anything is wrong with that its just that I've never seen her in my life she died two days after I was born, but I saw pictures of her and she was beautiful nothing like other mothers. I live with my dad he is a naturalist, so he is gone a lot... but I like that I have a house to myself besides the point that my neighbor comes every 2 hours to check up on me, other then that I like it here.

I got up from my bed look at the clock its only 4:27 in the night UGHH! I hated it when I wake up to early because now I had to wait to fall asleep again. My dads still in Australia he left last Monday he is support to come 2 weeks from now. My neighbor's son is so cute and he is 17 the same age as me, we are really good childhood friends.

My alarm clock woke me up in the morning it was so loud I jump out of bed. I went right to the bathroom brushed my teeth fast put on anything that was lying around and went down stairs. As I made my breakfast I was waiting for the thing that was coming... the door bell rang. "Ding, ding, ding"

I looked in the mirror one last time fixing my hair and ran to the door, when I opened it there he was him and his gorgeous smile.

"Hey David, how's life"

his name came out harder then usual

"Good, so are you alright"

that was a stupid question.

"Of course, why wouldn't I be?"

His expression turned all sarcastic.

"Oh No! It's not that, it's just that my mom just asked me to check up on you..."

I said nothing I was just waiting for him to say more I could seriously listen to him for hours I loved the way he talked and laughed and always acted sarcastic.

"Well you look great so I'll just leave"

shock ran through me, did he just say I look not only good but great...!!! YAY!!

"No!! Why don't you stay for a while if you want?"

He stared at me for 2 seconds then started so smile again

"Sure why not"

Yay! He said yes to me... usually I would not care but today he looks so cute in his long blue jeans and his white short sleeved shirt.

"Come sit down... is there anything I can get you"

Serving him would be fun we haven't played Restaurant in 10 years.

"Sure"

I wonder what he likes

"what would you like"

he was quite for a minute then said

"Umm! I really don't know what's in your fridge so Surprise me"

well we did not have much here so I just grabbed a coke and some leftover lasagna from last night's dinner. I put it down in front of him and sat next to him.

"So how's life"

he started laughing

"what's so funny?"

He smiled as he turned to look at me

"you seem to be asking that question a lot"

oh yeah that is true I asked him yesterday and the day before and the day before.

"Oh...I'm sorry"

his laughter suddenly stopped

"Oh don't be sad"

even though I was sad I couldn't help but smile at his desperate face.

"Don't worry I'm not sad"

He became happy again.

"Good... so anyways we haven't talked in a long time"

I had no idea what he was talking about

"we just talked yesterday"

he raised an eyebrow

"all we said was hi and bye that's all we say these days, remember when we where little how much fun we had together... hey do you still have Mr. fuzzy"

wow he remembers a lot more then me.. Mr. fuzzy was two teddy bears we bought each other for Christmas.

"Yes... do you?"

He started to blush his checks went all red like blood it was so cute!!!

"Maybeeee..." He said

Awww he was always cute when he got embarrassed.

"Oh hey do you still hate it when people call you Annagale"

oh I remember that I used to get so mad when he would call me that in front of my friends at school.

"Yes! So please don't call me that and call me Ann."

He started to smile

"Ann...agale"

he started laughing when I stared punching him and hitting him like we did when we where little but this time it was kind of embarrassing since we are older.

"Wow you still can't punch"

I did not know if this was an insult or a joke.

"Like you can do better"

I smiled at him.

"I know I can"

he said smiling back

"When we were little I used to beat you all the time"

he started blushing his cheeks went all red.

"That's only cuz I used to let you win... and"

He looked away like he was trying to hide something.

"And....?"

I asked really anxious not.

"I...Liked...you"

it was like a fairytale come true, the prince you've had a crush on admits his love.

"Oh..."

I was so happy yet right now it felt like something was missing something special.

"Well... this is awkward"

he said his voice cracking a bit.

"yeah... umm... how come you did not tell me"

he smiled to him self and said

"I was a coward I thought you deserved someone better plus you liked that guy... umm what was his name...Allen, Andrew, Alex"

he actually liked me ughhh I was an idiot for liking that Alex guy .

"Yeah it was Alex...do you know that he has a Unabrow now"

he started laughing his cute laugh.

"Yeah I saw him the other day he works at the mall"

I started laughing how ironic every time I'd ask him were would he like to work in the future he would say "I don't care as long as its not the mall I hate that place"

"oh hey Dave, do you remember when it was late at night and you used to climb up the stairs I sent down

for you so you can come in my room and we would talk like forever"

he chuckled this really quit chuckle that I almost did not hear it.

"Yeah and every time I would scare you with scary story's that you start crying and hide under your bed."

We both started laughing.

"Yeah those where the good days"

He started laughing harder

"don't say that, you make us sound like old people talking about there past."

He turned to face me again.

"Do you remember when every time we went to the Movie Theater and saw a scary movie you would always hold my arm and close your eyes... I used to like that... that's why I always wanted to watch a scary movie with you even though I hated them."

I started blushing like crazy I could feel my cheeks' turning hot it was embarrassing.

Before I could say anything he said.

"Ann, your blushing wow that's the first in years."

I looks away very embarrass now; he reached his hand out and tilted my face to look at him I stared in his gorgeous blue eyes.

"Your eyes are as pretty as always"

He said and I blushed even more.

"I never noticed but your eyes are blue"

he smiled that smile that was always on his face and winked at me I fell to the ground and he picked me up worry on his face.

"Never wink at me again" I said weakly

he smiled that cute smile of his

"why does it bother you that I'm handsome"

I fought back a smile.

"Yes and no"

he laughed once this time and kept smiling

"so you admit it I am handsome and you're crushing"

I got angry he is as obnoxious as I remember him being.

"You know what, yes I was crushing but now you just ruined it and if you don't mind I'd like to be alone so pleasing leave."

He smiled and said.

"That's all I wanted to know and now that I know I will just leave... but don't worry I'll be back for you and by the way..."

he was at the door when he finished his sentence"

"I'm crushing too."

He gave me a wink and left I was shocked for 2 seconds later I fainted, I have fainting problems every time I'm shocked.

Chapter 2. Fairytale come true

When I woke up I was in bed and someone was toughing my forehead when I looked up I saw David

he started to smile at me as soon as I met his gaze.

"Dave what are you still doing here... I mean I thought you left"

Was it all a dream did I not live it does it mean I will never know if he truly that way about me...?

"I came back because I forgot my jacket... when I saw you on the floor I was shocked, I thought you got over those fainting problem of yours"

he said in a worried tone which got me thinking I really did live it, it was not a dream I was so relieved to know he felt the same way, as he slowly leaned down I knew I would faint again because I knew what was coming so I was very happy yet disappointed when his mom came in with my medicine, we both looked up and saw her smiling.

"I knew you liked him too... darling he could not stop talking about you, anyways how are you feeling sweetie?"

Ms. Rose was a sweet lady she was always sweet which broke my heart the day her husband died she looked so sad her eyes where red and she was holding on to her stomach like she was about to puke

which made my stomach hurt... it was more of a burn but she is over it she is not like those other woman where they stay at home and just stare at pictures of their loved ones, even though she misses him she would never show it.

I started blushing when I saw that David was trying to hide his face. Before I could speak Ms. Rose spoke before me.

"Darling, I made you some chicken soup"

When I heard that I faced her I really liked her chicken soup usually I hate then but she makes the best kinds even when I was little I would fake it so she would make me some.

"Thanks Ms. Rose, I think I am already better"

she was smiling even more now

"Nice to know you still like my soups"

I was so happy she remembered

"Who doesn't like then"

I said acting sarcastic

"Well the only person I live with for some reason grew out of it"

she said looking at David. Everyone was quite the only sound was me slurping the soup which made it really awkward for everyone.

"Well I'll leave you two alone but I'll warn you I will check up on you soon"

she said smiling the widest smile ever seen. As soon as she left David turned to look at me again smiling now.

"What" I asked a hint of awkwardness in my voice.

"Nothing you just look even cuter right now then this morning"

I put my soup down, sat up then looked at him.

"What do you mean by that are you saying I'm not cute?"

"NO!! you are its just that this morning you where trying to hard to look good when you have a natural beauty that is right there and you hide it with all that make up, sorry if I'm upsetting you but its true."

I was not upset I was happy to know that I had to just be myself for him to like me, I stood up and looked in the mirror I looked the same way I did this morning when I woke up but if he liked it then no more make up for.

"Hey don't worry your still gorgeous but you can let loose you don't have to act pretty"

He started laughing and I laughed with him then he finally said

"you wanna go out some time"

I was shocked all of a sudden I fainted again.

When I woke up I was on my bed again and no one was there so I sighed and turned, on the side of my bed there he lay he was smiling and then he said

"hey Gorgeous... Please don't faint again you'll give me a heart attack"

I smiled too

"Anything for you"

I said blushing, he was so happy he jumped out of my bed and said

"Well if your feeling better then lets go"

I was confused

"Go where"

he put a huge smile on his face the same smile his mom gave me and him before she left

"I am taking you out for dinner lets consider it our first date shall me"

he reached a hand out to me and I toke it, I stood up and waited for him to leave so I can get dressed and he just stared at me like he was confused so I said

"can you please leave so I can get dressed"

Then he said

"Don't worry about it you look gorgeous... but if you want, I wont stop you"

I smiled and then pointed to the door then he turned and left right away, when I was done I went down stairs and he was smiling he took my hand and spun me around then said

"You look so Beautiful... that I cant believe your mine"

I starting laughing

"Its not like we are getting married.. So I am not officially yours"

we both started blushing then he said

"Well shall we go now"

then I said

"of course... by the way where are you taking me"

"where ever you wanna go"

I thought of that for a minute and then said

"As long as I'm with you I don't care"

he smiled then said

"Well then let's go to dinner then a movie"

I smiled back and we both left the house

"Sooo, is this your first date", he asked curiously

"I'm not even sure this is a date but if it is then yes it is" I answered

He started smiling the hot smile of his

"I think this is a real date but it depends on what you want it to be"

I started blushing but I promised my self I would not faint on my date so I looked away

he took my face in his hand and said "Please, don't look away from me"

I then couldn't help but blush so I said

"I'd rather turn away then faint again"

Then he smiled

"I'd rather look at you then the back of your head" He said sarcastically

I thought of nothing else to say but then It was getting to awkward that I said

"Does the back of my head look that bad?"

he turned and looked at me like he didn't understand what I meant

"Hell No, its just that I don't wanna go on a date where I cant even look at the girls face"

he replied smiling his dimply smile, I kept reminding myself to not look away from his when my checks got red but it was a loser of a habit.

"How does your mom feel about this" I asked

"feel about would" he questioned

"feel about us... dating" I told him

he laughed then said "she is happier then me she had already seen this coming" he replied

I started smiling not only were we holding hands but were both comfortable with it I was so tired that without thinking I leaned my head against his shoulder and left it there after I blacked out I heard someone tap me on the shoulders and when I looked at who it was

"wake up Beautiful where here" he said

I couldn't help feel happy as I walked with him I looked around the and had a feeling I have been here before and then that's when I show it the big sign the said downtown

"you brought me to downtown" I asked surprised

"that's where all the best restaurants are... and also the expensive" he said

"OH... you know we didn't have to come here we can go back rent some movies to wat-

"SHH!" he cut me off " this is going to be a fun night and I don't care how much it cost as long I am with you plus my mom was so happy she gave me $900 just to bring you here and I also wanted to show you something special that's happening tonight"

I was surprised so I just smiled and we both walked in he held out the seat for me and I sat down when he sat down I said "Well, this is fancy" he smiled and said "Yes it is... this is where my parents came for there first date as well" my head started thinking about that and came to the conclusion that, that's why his mom wanted us to come here.

"Sooo did your sister and brother finish university yet" I asked politely as he called to order.

"Two years ago you would have known if you there because we made a huge party for them because Dianna got accepted to be a nurse and Dylan is now a

surgeon" he smiled proudly then added " I want to be a doctor but it seems that our family is already full of doctors thanks to a Anna and Dyl" I remembered those nicknames that's what I used to call Dianna and Dylan... it was interesting to know how much has changed since I where young.

"Did you have the party that day I went to china with my dad" I asked he just shock his head as a yes then he said "when you came back for some reason you didn't talk as much as you did before you left all you wanted to do was lay around at home and talk to my mom about stuff she did not want to tell me all she said was that you where growing up "

he laughed to him self quietly then added "now I finally get what she meant, Hahahaha"

he laughed hared and then started blushing so I looked away just to notice that people where looking then I said "please stop laughing its embarrassing people are looking"

then he laughed harder "don't worry... they all understand your situation Hahahaha"

I got mad so I got up and as I was about o walk away until he grabbed my arm and asked where I was headed to so I said "I'm going home" "who's going to drive you" he asked

then I said "I don't know" he smiled and said "sit down lets first eat then I will drive you hope if you don't want to see a movie" I knew I had no choice so I just nodded and sat down. After a few minutes the waiter came and asked what we would like to eat David looked at me and said "why don't you order first" so I said "ummm... I'll have Dr.Pepper and some of your Sushi" then I waited for David to order "he looked at his menu then said "are you kidding me I thought this restaurant would at lest me descent and have at least one thing that I actually no about like what the Hells a creeps" he asked him a tone that had to sides to it made and calm but I hoped he would keep it down because I was getting into a lot of embarrassments today the waiter was calm and said "a creeps is something from the French in our restaurant we put ice cream, strawberry's and icing sugar on it so would you like to order it or not?" he looked once more at the menu then said "fine and I

would also like two slices of pizza and a cold drink" he said then looked at me after the waiter left

"so you have to do that all the time" I asked as he blushed

"I'm sorry It's just that I am nervous and I want today to be perfect" he said in the cutest tone I have ever heard him use and it was like a spell.

Chapter 3 - Perfect Date

"you really look gorgeous tonight" he said pointing to my black diamond dress

it made me blush really hard so I looked away with a smile on my face

right there I saw what I was not expecting it was surprising,

I saw David's mom there peeking behind a menu I was shocked she followed us.

"Wow Dave isn't that your mom" I said turning back to him

"wait a minute isn't that your dad" he said after me

then I was shocked because it wasn't only my dad but my dad and his work partner I hadn't expected this.

"Mom what the hell are you doing here?" he shouted across the room

his mom got up and came to our table

I couldn't see her face because I was to busy

watching my dad make out with his partner I was shocked I ran out crying.

"You see what you did mom you made her cry" I heard David say behind me.

Before I knew it David was in front off me I wasn't surprised

he had always been faster then me.

"Why are u crying babe you making your mascara run and by the way you look like a raccoon.... A cute one" he said with a little chuckle.

"You don't get it do you?... my dad lied he didn't go to Australia he was with that girl the whole month... he

likes her, what if he marries he I don't want a mom who did not give birth to me I want my real mom who carried me and delivered me" I said crying loudly

"OK first of all stop crying please People are looking at us" he said begging

"take me home now I want to go home... no wait I don't want to go home my dad will come home take me to your house pleassseeeeeee"

I begged

he said " fine but stop crying"

"I cant" I said dropping to the ground

before I knew it he picked me up and carried me into the car and drove me to his house that night anger took control I wasn't able to keep myself from screaming at people and crying all the time!

Chapter 4 - Arguments

I was on the couch watching T.V when David came in with my Pjs

he handed it to me and I just nodded wondering how he got in my house

it was like he read my mind he handed me the keys

"I took your keys sorry, but if you where going to stay over you need something to wear and I don't think you want to where my moms cloth there a bit old fashion"

"Thanks" was all I could say

all of a sudden someone starts banging on the door David got up and opened it, there he was my dad breathless

"do you know where Galez is?" he asked

Galez was something my mom nicknamed me but we never said it so that's why my name is Ann...Annagale like Nightingale my mom loved the name Ann and Nightingale so she combined them into Annagale.

"I just came back to town and I came home with presents but she was not there where is she I ran all around the neighborhood" I got mad and stood up and walked to the door

"oh! Ann Hun don't scare me like that I lost my wife I don't want to lose you too" he said as he hugged me I pushed him away and said "Liar"

"what are you talking about" he asked

"You're a liar, you say you love mom and yet you think its alright to go out with someone else while I still need you while in still a teenager while you're

the only one I have to love how could you do that to me dad you don't even deserve to be called dad"

a sharp pain went through me as I said that I not only hurt him but I also hurt myself.

I could see David picked up the popcorn and sat on the couch watching us with excitement.

"Hun, I don't know what your talking about?

"Don't give me that BullShit!, I saw you making out with your work partner or should I say moms best friend the one who always used to do stuff with me because you where a guy and you never knew how to handle me"

"OH! You saw that? What where you doing there, Hun I can explain"

"I don't want and explanation I just want to know why you lied, every night I would wake up because I had a bad dream and go to your room I would see you hugging a picture of mom that was the thing that always made me feel better but it was all a lie every single bit you're a lier you lied you said you loved mom that you would never replace her with anyone

that she was special but she means nothing to you right?" I said

"answer me, Right?" I yelled

"Hun I love your mom but she's dead I have to move on!"

"NO YOU DON"T! you can stay this way we can stay like this together you don't think its hard for me not having a mom well yes it is"

"Hun your going at this the wrong way-"

I cut him off

"you know what this tells me it tells me that if I died you would replace me too and you know what I don't want to be replace by anyone"

he was speechless

"Dad I don't want to hurt you but you hurt me and its not ok so lets cool it for about 3 weeks I don't want to see you I don't you go to your girlfriend?"

"But Galez-"

"Don't call me that! I don't want to see you, leave me alone!!!"

David got up and said

"I'm her bodyguard and she doesn't want to see you now please leave or this might cause trouble."

And he slammed the door in his face

"Ann are you okay?"

"Yup, why wouldn't I be?" My voice cracked and I realized I was crying

"if you were you wouldn't be crying" as he leaned over to whip my tears

"its ok I'll get him back here if you want?"

"NO! I don't want to see him!"

"Fine if you're sure" he smiled and winked at me

"wow Ann this is the first time I winked and you did not faint"

"of course I didn't dumb ass do you know how mad I am?"

"Sorry Gorgeous" he said and skipped upstairs

he came back down in 3 minutes saying "I got your worm bath ready now got take a bath" he handed me a towel.

I tried to smile but my mouth kept going down on the edges

I skipped up stairs and got into the bathtub the water was worm it felt like it was hugging me like it wanted to protect me I felt safe I felt happier

when I was done I got into my Pjs and got downstairs

"where do I sleeps" I asked

"you can sleep in my room" he said with a smile

"ha-ha really where?"

"really with me"

"fine"

I skipped off to his room

Chapter 4

My Own Little Fairytale #4

Chapter 5 - Looong Night ;)

I went up stairs turned left remembering from when I was 12 where his room was

I went inside and it was totally different the wall was colored peach and his king sized bed was at the right with white pillows and a white blanket. I looked to the left and saw his study area where his computer was and a big desk with about 40 papers messed up there I was shocked wow! He had his room done it was amazing when we where little we used to always go hunting for stuff like a pillow or a book his room was so messed up but now he has definitely matured.

I looked around once more expecting another bed when a hand was on my shoulder I jumped. It was only David.

"Wow you scared me!" I said play punching him in the arm

he laughed then said "I really became neat right?"

"Yup im surprised" I laughed

"hey are you ready for bed" he asked

"yeah...umm where is the second bed?" I asked hoping there was a second bed

"silly girl, I tossed out the second bed when you stopped sleeping over"

and all my hope was gone

"so im supposed to sleep on your bed... ok well good luck with the couch Dave"

"ha-ha really funny we can sleep together" he said smiling

"Are you crazy, we are 17 who knows what's going to happen"

he was speechless "fine" he finally said

"thanks" I said as I got into bed

that night I fell asleep very fast

when I woke up the sun was shining on my arm which was very uncomfterble

it burned to much but I did not want to get up yet so I just moved to the other side of the bed.

Next thing I know there was something when I opened my eyes there he was staring at me I jumped up and banged my head on his draws

"Wow, are you ok" he said helping me up

"what the hell are you doing on your bed" that sounded so wrong in so many ways

"well, sorry for wanting to sleep ON MY OWN BED" he said sarcastically

"no I mean why? You said you where going to sleep on the couch And OMG can you please put on a shirt" I said throwing him a shirt

"why does it bother you that I am sexy" he said with a big smile

"OH come on, stop that!" I said laughing

"the reason I came to sleep on my bed was because the couch is too hard to sleep on and also to small and plus I kept falling off!" he said painfully switching when he moved his head

"well! Why didn't you wake me up I would have slept there" I said angry

"because you where so cute when you where sleeping I did not want to wake you up"

"OMG stop with all that mushiness and tell me the truth what happened last night"

"OH!!!!!!!!! I get where your going with this, I swear nothing happened I came on the bed closed my eyes and zoomed out" he said serious

"OH! Thank good" I said happy again

and then we both went down stairs for breakfast

Chapter 5

My Own Little Fairytale #5

Chapter 6 - Weird Morning

I was in the kitchen before he was, so I sat down on the table and Ms. Rose handed me a plate on it was 3 bacon, scrambled eggs and two sliced breads then she asked

"Hun, do you want some orange juice of chocolate milk?"

"Orange juice please!" I said

I was trying to get into shape so I could not eat or drink anything related to chocolate.

Next thing you know he was behind me with his hand on my shoulder

"Mom can I have some of that too?" he asked

"sure David" she said eyeing him with curiosity

after she gave it to him she said

"well I came home late last night and when I came in to your room you too where on the same bed... care to explain?" she said and my cheeks turned red like crazy but he hadn't seem to mind

"Well mom first of all I-"

she cut him off "OMG good going Dave your a man now! that's why I left again yesterday because I had to buy you something" she said excited

"really? What is it?" he asked

she looked at him smiling

"OH NO! OH MOM! COMMON!" he said disgusted

"Well you are growing and I am guessing you will need it now"

she said handing him a bag

he looked inside it and gasped I didn't have to look I already knew what is was but as he was pulling it out I looked away not wanting to see it but it did not help since i saw it from the corner of my eye! it was a small blue box and you can figure out what it said at the bottom of the box!

Chapter 6

My Own Little Fairytale #6

Sorry for taking so long but I was on vacation lol! Hope you enjoy BTW Vacation 2 weeks in Hawaii was amazing it was beautiful and getting the feeling that the volcano can explode any second and you could die was scarily fun!!! I enjoyed it a lot I hope you enjoy my book

Chapter 7 - You must be joking!

"Well you're going to need it and-"

"OH MOM! That's just wrong... I might be saying that because there's a girl here but if im not then yeah this is so wrong!"

He said sarcastically but when I turned around he was shocked

"look... if you don't need it now you will sometime so suck it up! And by the way I know your saying this because she is here" she said winking at him he was speechless but his face said it all it went all red.

"Ummm, Ok Fine I'll just put it away till I decide to throw it away!" he said

"I am with your mom here, you seem ready but just to tell you I know how wrong I sound" I said laughing

his mom smiled at me and mouthed 'thank you'

I smiled back then he cleared his throat and said

"well, yea but umm..Yeah...And..." that's all he said before walking away me and his mom stared laughing together

it was silent for a moment which made it very awkward so I took a bite out of the bacon...wow it was delicious of no where his mom spoke with really strong feelings of words.

"I miss you calling me Rose... you for some reason call me ms." She said trying to smile, OH! I remember when I was little and she would say call me rose of mom, I called her rose since mom sounded weird.

"Sorry Rose" I said feeling bad

she started smile and from them on we started talking about random things like when she said laughing

"Im ok with him growing up but if he ever tells me he got a girl pregnant his done for!" I laughed with her

"I really don't care but if he was my son then hell yea! I'd go nuts"

we where laughing so hard my side stared to hurt.

"I... Can't...Hahahaha... Breath!" we said

that's morning was fun but when he came down stairs we stopped just staring at him them each other then minding our own business

"Hey!" he said probably comer about the subject.

"Hi" I said smiles then all of a sudden I could not hold it in and for some reason neither could rose we both

fell on the floor and laughed like crazy. He was clueless like a lost puppy.

"What are you guys laughing at?" he said annoyed

"No....thing! We said together trying to pull ourselves together

once we where calm he said innocently

"Sorry mom, well I'm 17 almost 18 and I think I am ready its just I don't like discussing it"

"Its ok Babe I hate talking about it too now go get yourself ready"

she said eyeing him

"for what" he asked

"oh come on don't tell me you are going to let her stay over and not take her out around placing your cheap!" she said annoyed

"OH!" he said

"Umm. No its ok I don't really wanna go anywhere!" I said disagreeing

"well to bad since you have no say in it!" he said serious

"no go get dressed you too" rose said

"No offense but did you forget that my cloth are at home?" I said offensively, rose smiled and said

"don't worry, follow me and let's see what I've got"

I followed her trying to find away to reject the cloth she is about to give me knowing what David said about if being old fashion, but when we where in her closet I was shocked the dresses she had where so cute it was amazing and the cloth, there was only one word to describe this... and that word was... after I got into the beautiful Red Rose dress with the ribbon at the side I had chosen from roses closet I

went downstairs and saw that David was waiting down stairs with a cute tux on.

"Aww! David you look so gentlemen like" I said after he reached for my hand to help me down the stairs.

"Thanks, But you're the one who is looking mighty fine" he said spinning me around with his left hand and my right hand, checking me out. I just smiled and he led me out the door.

"Have Fun" I heard rose call after us

"where are we going" I asked

"we are going to a ball" he said with a smile

"a...a ball?" I asked surprised

"yup, why you don't want to go? Ok well we can go to th-"I cut him of with a finger to his mouth

"no, I'd love to go I was just surprised that there are actual balls around here" I said softly he tilted me head up to read my face but as soon as I saw his face I had a strange urge to kiss him but it didn't help that I was still looking at him but for a strange reason I felt that this was right that I am safe and the moon

was out the stars where shining. I inhaled the sweet smell of his breath and as he leaned him my breath caught when out lips met his lips felt so soft against mine and I leaned in for some more as the kiss became more passionate I put my right and on his neck and my left on his head pulling him in but after a while we had to stop because some little kids where staring at us.

"You kids better run you interrupted something very good" he said angry and I laughed

"that was the perfect first kiss" I said happily

"maybe for you but for me that was the perfect 100th kiss" he said mockingly and smiled a wide smile I just smiled back and said

"shall we go to the ball" I asked as we stood there

"yes we shall" she said with a low chuckle pulling his fingers trough is hair I laughed to and did the same, mocking him

he laughed and said

"you cant imagine how hot you look right now" I blushed and then looked away before I have the chance to faint. But then I was being carried and put into a limo.

"what was that for?" I asked surprised

"well if we are going to a ball we might as well do it the right way, am I right or not" he asked and I just laughed pinching his cheeks

"your such a gentlemen" I said after a moment of silence then brought the conversation out of know where.

"so... who are the girls you kissed?" I asked a little shy

"don't worry you're the best kisser out of all of then" he teased

"Ha-Ha really funny, anyways do you have a Girlfriend right now?" I asked confused he seemed like the ladies man

"no I dumped them last night" he said with a laugh

"THEM?.....LAST NIGHT?" I said with no emotion

and he laughed even more so I decided to end the conversation there.

"Wow this is amazing" I said surprised

"I know right?" he said

"so, what are you thinking" I asked feeling romantic

"I wanna Dance Or Just go to a corner and make out" he said with a Grin

"Whatever, Lets Dance you big pervert" I said smirking at him as we walked to the Dance floor, there was a slow song on, it was very romantic. He pressed into me leaving no space as he grabbed my waist and pulled me in even more I put my arms

around his shoulder and leaned my head against his neck.

"I'm...Happy" he said

"about what?" I asked kissing his neck once as he moaned

"about us" he said

"yeah, me too" I said

"really?" he asked

"yeah why?" I said

"because I have something to tell you" he said

"what?" I said pulling away so I could see his eyes

"well, the thing is do you know what we where talking about this morning?" he asked

"yes?" I said confused

"well ummm, well" he said

"spit it out" I said kinda rude

"I have a soooo, never mind" he said

"tell me" I said smiling

"you wont be mad?" he asked

"why would I?" I asked

"because I have a son" he said and I ripped my arms away from his neck

"WHAT? YOU HAVE A SO...SON?" I screamed so loud everyone stopped dancing and started staring at us two.

"you said you where not going to be mad" he said

"well this has an exception" I screamed

"please just calm down!" he whispered

"how am I supposed to calm down after I find out my Boyfriend has a son?" I asked as I heard AHHH's and OHHH's and Wow's and ....

"look let me explain" he said

"there's nothing to explain, your just a total Bitch like my friends thought you where" I said then it hit me.

"NOOOOOOOOOO!!!!!!!!! It can't be... YOU AND VICKY?" I Screamed

"S...so...sorry" he said

"OMG I'm not hearing this please someone tell me this is not true" I screamed

"sorry" he said again

"she told me she was pregnant with her BF and that's why they broke up because he did not want a child!" I said angry

"SHE WHAT?" he asked

"Does your mom even know? I asked

"yes so that's why she got me ... you know what... this morning so I don't get another girl pregnant" he said normally

"WTF and your hear explaining this to me while my BFF is at the Fucking hospital giving birth all by herself without her parents because they disowned her?" I screamed and ran out the door as I heard him yell my name but I was not going back to him I ran and ran and got lost but luckily I found a bus that took me to the hospital and I asked for my friend they said... 'she died while giving birth' I broke down in tears she died and I didn't even see her or say

Chapter 9

My Own Little Fairytale #9 (OMG its getting Juicy!)

Chapter 9 - Sad & Happy

after what had just happened I don't think I could go back to Jack's house so instead I walk around till by feet start Bleeding because of these shoes. I take out my cell phone and Call Jennifer. After two rings someone picks up.

"Hey girl, how's your weekend going?" She said

"Just Perfect!" I said sarcastically

"Uh Oh! Something bad happened, tell me!" she said excitedly

"I don't feel like it" I said softly

"Uh No, that bad?" she asked

"Uh Huh!" I said agreeing, Hell yeah it was that bad! No! Actually it was way worse then bad it was horrible!

"Well, take all the time you need I'll be here waiting for you" she said

"umm well, can I ask you for a favor?" I asked

"Of Course, Just name it!" she said happily, Jennifer is always the happy, fun one. She is always there for me when I need her to be.

"Well, can I kinda stay over at your house for about 2-3 weeks?" I asked embarrassed, there was a long pause before she said

"Why?"

"Umm well it's a long story, I'll tell you later" I said

"oh ok well let me ask my brother" she said, Jennifer has always lived with her Cute twin brother ever since her parents died in a car crash and her grandma said she would buy them a house of there

own since she got married and wanted to travel the world.

"Yeah, he said you can stay for as long as you like!" she screamed in the phone happy

"thanks!" I said

"No problem, hey I think my brother likes you Ha-Ha" she said and I blushed

"umm, can you pick me up? I have been walking so much that my feet are now Bleeding like shit " I said trying to change the subject

"Oh I cant my Car broke and its getting fixed but I'll ask my brother if he can" she said

"thanks!" I said happily

"Ok umm, where exactly are you?" she asked and when I told her the exact place I was in she said that I have to wait on the bench by the bus till her brother comes for me. When she hung up I felt alone and scared since I was the only one there and it was dark. As I got to my feet and walked to the bench someone grabbed me from behind

"Owe!" I scream

"Shut up!" said a deep man voice

"Who the hell are you" I asked

"im Josh and your Hot... and alone" he said

after a minute of silence I felt his hands unzip my dress and I started to cry

and he said "Awe don't be like that! Lets have fun!"

"Leave me alone, I don't want fun!" I scream

"Shut up or I'll hurt you!" he said and I cried more

then out of know where someone came up behind and punched in the face, I looked closer and realized it was Jason, [Jennifer's brother]

"are you ok" he asked and I just nodded he grabbed my hand and pulled me into his car

"What were you thinking? You could have gotten yourself hurt" he said angry

"what? Now it's my fault that happened? Look I was not the one saying 'hey come here look at me'" I said rudely

"well that dress of yours screams out ' hey come here look at me'!" he said while he drove the car. I was quite and then he finally said

"Look im sorry"

"whatever" I said not wanting to get so far into the apology thing

"but why the hell are you wearing that dress?" he said smiling and I knew what he was thinking

"for your information, I am not wearing this to impress you, im wearing this because..." as I explained everything to him all that he said the whole time was 'Who's Jake?'

"Jakes my, EX-Bf!!!" I said

"oh ok" he said

"well now Vicky is died and I have one person to blame, JAKE!" I said

"well, don't scoop down to there level, revenge is not good" he said

"who said I wanted revenge, I was not raised that way" I said

"then how where you raised?" he said then after 2 second while I was thinking of an answer the car broke down.

"What the hell this is a new car!" he said angry as he got out of the car and kicked it

"what happened" I asked as I got out of the car

"nothing, it just broke down" he said trying to stay calm

"well what do you do?" I asked

"well we can walk all the way to my house and I can come back and fix the car tomorrow! He said smiling

"how far away is your house from here?" I asked

"10-15 minutes" he said

"that's to far" I half-screamed

"gives us more time to talk" he said

"What?" I asked mad now

"well, umm how do I say this, ummm, I...like you! He said and my heart stopped

"like?" I managed to breathe out

"yes! I am in love with you" he said and I jumped him and hugged him

"Took you long enough to say that!" I said and with that I kissed him, his lips felt soft

it melted me, I kissed him passionately and he kissed me back, after 5-10 minutes later I break the kiss for some air.

"Are you ok" he asked smiling

"a bit better then ok!" I said taking his hand and walking with him

"umm, yeah I forgot to mention your dress is unzipped" he said chuckling a bit

"oh umm can you zip it up for me?" I asked and without a word he zipped it and ran his fingers down my spine I shivered from is touch and i liked it

"umm, thanks" I said and we walked without a word till we reached the house, Jennifer was the one to open it, she jumped on me and hugged me, I still did

not let go of Jason's had, when she was done hugging me she stopped to look at our hands and said

"Finally! God knows how long I've been waiting for this, its so annoying to see you two always talking and flirting and never asking each other out!" she said laughing and then she took my and dragged me in the house.

"come lets go to my room" she said hyper

"umm, Jason I'll see you tomorrow, goodnight" I said and gave him a peck

"Goodnight" he smiled, and my and Jennifer walked up the stairs to her room, she didn't even ask about the dress, but she asked what had happened. After I was don't telling her she was shocked all the came out of her mouth was

"V...Vi...Vick...Vicky's Died!!!!!!!" I just nodded and she almost fainted, which reminds me that I haven't fainted in a while maybe my fainting problems are over.

That night Jennifer called Vicky's house and told Vicky's parents what had happened they where

shocked but they still blamed Vicky for getting into the mess in the first place. By 12 everyone was asleep and I couldn't fall asleep, I just kept on crying for no damn reason.

In the morning I woke up Jennifer woke up early, I was awake all night. She said that it was Monday today and that we had school and that break it over, she lend me some of her cloth and we went to school. I was quite the whole day the only person I talked to was Jason, Jake saw us holding hands at lunch and came up to me saying angrily

"you leave me last night, and now your already dating him"

"You killed Vicky" that's all I said before I stood up and walked out of the lunch room with Jason. Me and Jason also made out afterschool as we waited for Jennifer to bring her car from the Fixing store {What do you call it again?...lol whatever}

When Jennifer finally came and broke our kissing I asked her if she can stop by my house so I can grab my cloth on the way she said ok

while I snuck into the house with my spare key i ran up stairs packed my cloth in a suit case and before I went downstairs I heard a noise coming from my dads room so I peeked inside, I saw my dad in bed with that woman I saw him with that night, I felt disgusted I ran downstairs and Jen drove quickly

My Own Little Fairytale #10

Chapter 10 - .....

when we where finally inside her house Jen ran upstairs and said she needed some privacy...i had no idea why so i went up and knocked on her door to ask her.

"Jenny, girl, you okay?!" i asked worried and she opened the door and looked at me for a long time then asked,

"why the hell did you follow me?" i was shocked,

"....ummm, whats that suppost to mean, i came up to check on you?!" i said confused

"yeah but why?!" she asked

"what do you mean why?!" i asked and she saw the hurt in my eyes then laughed

"wow girl, i wasnt trying to be rude, just asking" she said

"im confused!" i said

"i came up hear so i can give you guys privacy, for messing up your make-out session after school" she marked the 'make-out session' with her fingers as bunny ears, then everything made sense.

"Oooohhhhh, nevermind then! see ya later" i said turning around

"have fun!" she giggled and i blushed, i ran down stairs and saw Jason in the kitchen making lunch.

"so what did she say?!" he asked me normally not even looking up at me and blushing

"somthing already tells me you know" i said chuckleing

"and what is that something, that tells you i already no?" he asked leaning against the counter looking right at me, and i got off the seat to go lean on him

"your cheeks give it all away" i whispered as i rubbed the back of my hand against his cheek, and he blushed even more. i looked at his lips then into his i eyes, he brushed his lips against mine,

we started to make-out in no time at all. his back against the counter and me leaning it him, my right arm around his neck pulling him in and my left on his head pulling his hair, his hands where on my waist. our lips moved swiftly together in a rhythm. i opened my eyes to see his eyes open and we both pulled away smiling!
